## -Future Kids from the 700's - does born in 2017-

The following dams listed on the left side are first fresheners. For many years it was considered wrong to sell a buck kid from a first freshener. We try to ship at four weeks. We will report to you on the dam's progress 4 weeks into her lactation if we don't feel she is living up to her ancestors. We will try to refund your deposit if we aren't happy with her at that point. (Heads you win, Tails you win) Dam doing great, you get the kid. Dam doing poorly, you get your deposit back.

In January 2017 we said:

Scott's best buy for a Dairy Farmer who does not register is #4114 ECLAIR'S future buck kid. She is still bursting with milk in October 2016 and the Judge (Biddle) put her 2<sup>nd</sup> in a class of 12-14. However the competition was not stiff at the Frederick Fair show. On the minus side, she LA'd 85. She is big and powerful, not cute. On the minus side, her two doe kids by ELYAN were butt ugly, and one had poor milk. On the other hand, that particular Appraiser was a 4-H Judge, not a Dairy Farmer. A power doe headed for 4,000. Her dam, CUMIN, is our only 5,000lb in 305 doe right now. Both ECLAIR and CUMIN are 99<sup>th</sup> percentile does.

Another bargain is EYLEX's (#403)'s buck kid. Because she can do 4,000. It just hasn't happened yet. And if she misses, the components make up for that.

Another one Scott sees as a very good deal for a Dairy Farmer is EZZTAR (#480)'s future buck kid. She has the same max rating (99) as her sister but CAPRIKORN will work off the prettier sister (479). But our dairy farmer customers don't care very much about looks. Three different dairy farmers have already bought EZZTAR buck kids for around 1500 each.

The buck kids from #421 and #422 have the same value for dairy farmers – monster milk but marked down due to lack of showability. Also #486's future son.
