2017 Bucks for Sale

rev. September 15, 2018

In WordPerfect under: 2017 Bucks for Sale

If you want one, send a deposit of 10% (or a \$100 minimum) and a contract2

*Contract2 is behind the button, "Order Forms," on the website.
Or call us (301) 834-8030 and we will fill it out!

THANKS!!

A dairy farmer wrote in with the question:

“Is it really worth paying more for the more expensive buck?”

Scott wrote back, in Spring 2016:

“The answer is I don’t know.

Here is one dollar and cents approach I thought of.

There are 16 **99th** %ile does. The average PTAM of those 16 is 333.

There are 16 **95th** %ile does. the average PTAM of those 16 is 230.

So it looks like for every one percentile drop the milk goes down by 26 pounds. HENOOSKI had a dam with a PTAM of a 93 so that would be 7 percentiles down from HAN SHOT FIRST.

26 pounds times 6 percentiles = 156 lb /year. So that would mean on average his daughters will give you 156 less pounds every year, year after year. And his granddaughters will give you one - half of 156 pounds year after year. So if you are milking 80, then $80 \times 26 \times 7 \times .41/\text{pound} = \$5,970$

80 does times 156 pounds equals 12,480 pounds per year.

12,480 pounds per year @ \$40cwt = \$4,992.

5 years of milk from each doe equals \$24,960.

That’s my guess.”

A lot of work needs to be done to make this computation more accurate.

First, what about the granddaughters and great granddaughters?

Nothing was added to the \$24,960 for them.

Second, probably starting by comparing the 99th percentile to the 95th percentile is not right.

Because the 99th percentile will have a few that are REALLY crazy for milk.

So, if we found 16 does in 85th percentile and averaged their milk (PTAM). Then subtracted that number from 230, which is the average for the 16 in the 95th percentile. That would give us the drop for ten percentiles. Dividing that by 10 would probably give us a more accurate figure than 26 pounds per percentile.

TESTIMONIALS

“The Caprikorn does are amazing. They so out class the rest of the herd it’s not funny.”

-Trent Hendricks, MO

“A big congratulations to your TOP TEN DOES last year. I keep reading on and on and kept seeing all your listed. Yea Caprikorn!”

-Tom & Roni, CA

“SPARKLE is milking GREAT!!! Thank you for breeding these quality goats.”

-The Jacksons, WV

“We LOVE our Caprikorn Farm goats – they are not only very productive, they are lovely personalities – smart, but not overly pushy.”

-Bedford Blueberry Goat Farm, MA

“I would say you are probably the top herd in the nation now with those classification scores and that milk production.”

-Janelle Anderson, 30-year Saanen Breeder, NE

“Our KID ROCK daughters are milking 10 pounds at 10 months of age!”

-Emanuel Schneider, PA

“By the way, HOT ROD is doing great. His girls have had their first kids. He definitely improved our genetic pool.”

-Andrea Gauvreau, Quebec

“Scott, bought seven does from OK. Had never seen such milk or quality in a goat herd. When asked about the genetics he said they were Caprikorn.”

“They are doing 18 pounds a day. The yearlings are doing 13 pounds a day.”

-Thomas Childress, Hereford Breeder, TX

“I am overly pleased with EARTHMAN and the improvements that I can already see that he has made to our farm.”

-Wendy, Bootleg Farm, GA

“My name is Shereen and I bought a buck from you a couple years ago. Fantastic buck - I love this buck!”

- Shereen Wilcox, PA

“We have 105 does..Just so you know the Caprikorns are the nicest and largest ones. We can always pick them out just by looking at them.”

-Lori Lyons, WI

“Dear Scott, that is some Sales List! I know your goats are the BEST!”

-Brad Parker, Pipe Dreams Fromage, PA

“Hey Scott, I got to milk some of your best goats when Alice was here; was impressed!”

-Levi Petersheim, IA

“The Caprikorn girls are doing FANTASTIC! They are exceeding our expectations. They are always coming in with full bags and they don’t want to slow down production very quickly when it is time to start drying up.”

-Jared Rebling, Brighton, IA

“AMBER is a milk machine. I appreciate the temperament of all your goats; they are so nice and loving!”

-Scarlett Payne, Utica, OH

“A lot of the ones we have from your bucks freshened at 11 months and they’re just fantastic.”

-Keith Tift, VT

“DILL and DYLEX are **amazing**, and as milking yearlings were amazing also..”

-Lila Streff, SD

“I appreciate that you are willing to refund our deposits; we have decided to back out of all 11 dairy goat kids.”

- Trisha Bickel, Hamburg, PA

“I have appraised all the major Saanen herds and you have the best feet and legs.”

-Linear Appraiser, American Dairy Goat Assn., 2013

“I am so very glad to be able to work with you as you are one of the most reliable and honest goat breeders I know. It is such a pleasure to have complete confidence in a purchase to know that it will be totally as represented”

-Teddy West, OH

Update August 14, 2017

The **95th** percentile does average **243** per PTAM.

The **98th** percentile does average **302** per PTAM.

Increase of **59** pounds per year.

There are **3** percentage points between **95 & 98**.

Therefore, each percentile translates into **20** pounds of milk per doe per year.

So, for example. If I have a normal non tested herd, that might be **40th** percentile.

If you use **90th** percentile bucks long enough, you move up by **1,000** pounds per doe per year.

The **99th** percentile moves you up much more than **20lb**.

Here is a list of the 2017 bucks that were still HERE
as of November 14, 2017.

There are no page numbers - they are listed in Birthday order

Warning CAPRIKORN yearling bucks are usually ugly. Pretty as babies. Handsome as older bucks,

WIDEST udder in the herd. VERY IMPORTANT. You can't make them too low. You
can't make them stick out in the back or they pee on them. So make them wide! "

On 6/15/16, Scott said HIGH BAIL looks great but has loose shoulders. On 7/25/16 four
Amish Dairy men were here and HIGH BAIL was in consideration. But he was not one of the three
they picked. What Scott saw was “A lot of dairy character, very good escutcheon, good-looking,
maybe a little top line weakness if you are looking for it.” There may be other BAR EXAM buck
kids some day. But none sired by ECLIPSE, who died.

Scott said: “Tad bit narrow from the back. Little topline dip. Sharp withers, Steep rump, Very
good in the front. Almost tight toes. Very good shoulders.” HIGH BAIL lives in Venezuela now.

3-11 364 4530 162 148

5-01 238 1889 61 3.2% 57 3.0%

6-02 225 1959 68 3.5% 63 3.2%

6-10 311 2540 82 3.2% not a proper dry period

7-10 267 1352 49 3.6% 42 3.1%

Lifetime 2268 days 21,380 milk 724 fat 691 protein

We reserved ILEX before she was born. Then, per the contract, we got the pick of three doe kids. ILEX was a 99th percentile doe and her dam CARRA was a 99th percentile doe. At that time there were only 16 living Saanen 99th percentile does. 99 is as high as USDA goes. ILEX beat the whole herd in milk/fat/protein. 3.2% is as high as Saanens go in protein. An upstanding doe with no attachments. She is a tribute to Cecile Beauchemin, who had the will power to stay on DHI test for years, and to always breed to Sire Summary/Top buck List/ Elite/ Top 15% bucks. Never bothered to show.

We said: "She is dying as of April 2016."

After being dry for most of 2016, SHE KIDDED FEBRUARY 2017 AT TEN YEARS OLD!

DDS: SG DAUGHTER'S BEN +*B dam of ILEX former 99th %ile

D: SG DAUGHTER'S CARRA8*M

DDD: SG DAUGHTER'S WILLOW 7*M

THIS BOY IS HANDSOME AND HUGE. He is the biggest by far of the yearling bucks on April 18, 2018. He is bigger than the 2yo's also. He is posty, which along with his weight raises the fear that his back pasterns may go down some day. But we have the best back pasterns of all MAJOR Saanen herds, because we bred for them over udders, unlike everyone else.

It is almost certain this will be the last kid from the great ILEX, foundation doe for the awesome NEW RED LINE..

Ended with Lifetime 1,396 days 15,575 pounds 2.8 b.f. 2.8 pro
Finished in only 4 shows, a total of 6 rings.

An ELITE DOE (which strictly measures milk/fat/protein genes). VIOLET had “INVERSION” - more protein than fat. We chose VIOLET’s twin VERN to breed the awesome does STARGATE P.33 and VENICE. VIOLET’S dam had the big arc 35. And Rear Udder height: 38. Dam had extra teat. VIOLET started life with the RENOV steep rump. That changed. We don’t want to waste time on conformation but one item we do want is “The Big Arc”! We used to have big wide escutcheons. When CRUZERIO did 5100, totally smashing our previous record, everything became lined on her. Then we lost the Big Arc. SPRING’s descendants will bring it back. As of November 2012, Violets lifetime was 1,396 days 15,575 milk. She had cream, not white hair and an undesirable Saanen nose. It’s so easy to be the top Saanen milk herd. The other breeders select for color and noses. We can just keep selecting for milk/fat/protein, all wrapped into one number called “percentile,” or “Rank.” VIOLET “HAD IT ALL” the GCH and the 92 and the components

It is very unusual for there to be two straight generations of 92's. There are very few Saanen 92's in any given year.

That said the SGCH’s and the Top Tens make HAWK a Spotlight Sale buck. But the sale is in Texas, not dairy country, this year. HAWK is longer than the other buck kids like his dam and her brother, MEADOW BOSS, one of our main herd sires.

This one hurt! MEADOW HAWK had a full brother, MEADOW HAWK 2. He got what we call “the Bulldog” - front shoulders loose, front legs crooked-bowing out, winging out. SALE BARN. A \$5,000 hurt.

HAWK - “One of American Dairy Goat Associations Sire Development Bucks”; seems a little passive

01-00 359 2749 96 3.4% 88 3.1%

As of November 2014 she was first in lifetime milk, fat and protein. In July 2015 her
lifetime fat was 900. The closest doe to her had only 700! Milk 32,000 lb. Some don't get
that far.

We have In-House shows. In April, Claggett made HALLOUMI the Reserve Grand of the 35
Milking Yearlings. THE APPRAISER made her TOPS! So did both judges at the Leetown show

IT IS HARD TO RATE HALLOUMI MILK WISE. She was the Milking Yearling in the show
string. We came up with a new milking protocol that was so bad 2 of the Show String died. So far
in 2018. She is 3rd out of 14 2 y.o.'s on milk. J JAM is a great value because his dam has not
milked 4,000 yet. She got mastitis and ruined one sick. But the genes are still there.

SDS: CAPRIKORN ZECRET KEEPER *B P.33 Recent Bucks

#3 All Time on the August 2014 Elite Buck List

SD: SG CAPRIKORN ZECRET CUMIN 3*M #276 TOP TEN **THREE TIMES** LA - 90

SDD: SGCH CAPRIKORN WEALTH XTORT 2*M LA-91 As of November

2014 she was first in the herd in lifetime milk, fat and protein. In July 2015 her lifetime fat was 900. The closest doe to her had only 700! Milk 32,340 lb. Some cows don't get that far.

DSS: ZECRET KEEPER *B P.33 RECENT BUCKS #3 All Time Buck - August 2014

DS: CAPRIKORN ZECRET BLUE STAR *B page 26 recent bucks LA-90, Jermain BLUE STAR'S numbers are good enough to be number one on sire summary. But he does not have a dau with a lactation in another herd.

DSD: SG CAPRIKORN SNOW AQUAGIRL 4*M #60 97%ile Elite Doe

Beat all the yearlings, beat all the 2 y.o.'s, bought for \$2,230

D: CAPRIKORN BLUE STAR FLEET #558 AS1714802 98%ile

HIGHEST PTAM OF ANY U.S. SAANEN as of May 2018

STAR FLEET'S PTAM is 454 as of May 2018

The top buck in the U. S. Was only 247.

DD: SG CAPRIKORN RENOV'S ZTARTREK #991 -(our best doe)National's Placing 305 4000+ 99%ile

DDD: SG CAPRIKORN KRUG'S STARGATE 1*M #1 in U.S. Twice LA-90 & LA-89

Alice listed ZTAR FLEET as HEZE'S dam and we FINALLY got ADGA to fix her error. HEZE's dam, STAR FLEET, displaced HEZE's granddam, ZTARTREK, from the highest PTAM in the U. S. Can HEZE continue the streak? Looking good but not great. Awesome BC though.

She was killing the other yearling after 2 tests. Then dropped for no big reason on test #3.

There were some minor mastitis issues.

So Scott dropped STAR JET's price by \$1,000.

This was the buck out of all the yearling bucks that caught Ben' Rupchis's eye 9/10/18. Ben volunteered "If HIGH BAIL had a doe on test in another herd he would probably be #1."

Finished in only 4 shows, a total of 6 rings.

An ELITE DOE (which strictly measures milk/fat/protein genes). VIOLET had "INVERSION" - more protein than fat. We chose VIOLET's twin VERN to breed the awesome does STARGATE and VENICE. Nine pounds at birth. Dam had the big arc 35. And Rear Udder height: 38. Dam had extra teat. VIOLET started life with the RENOV steep rump. That changed. We don't want to waste time on conformation but one item we do want is "The Big Arc"! As of November 2012, VIOLET'S lifetime was 1,396 days 15,575 milk. She had cream, not white hair and an undesirable Saanen nose. It's so easy to be the top Saanen milk herd. The other breeders select for color and noses. We can just keep selecting for milk/fat/protein. She "HAD IT ALL." VIOLET'S dau SGCH MEADOW ZEPHYR also has a 92!!

DD: CAPRIKORN MEADOW SPRING - named after Tina Gilchrist's doe

DDD: CAPRIKORN MEADOW NYMPH LA-90 Founder of NYMPHIE FAMILY

MEADOW BOSS has the numbers to be on the Elite Buck List.

As of March 2017 - Milk Plus 178, Fat plus .06, Protein minus .02

For example ELKO is Milk Plus 100, Fat plus .07, Protein plus .06

And ELKO is 89th. So BOSS is around 93.

But the computer won't list him there until there is a tested dau in a SECOND herd.

We took BOSS to his first show on June 8th of 2014. He was 3rd of 3 in Rings 1 & 2. He was second of three in Rings 3 & 4. In Ring 4, the buck that beat him went on to be the Grand Champion.

He is longer and taller than other Saanen bucks with very sharp withers. He looks awesome from the side and he is too narrow viewed from the rear. In 2012 Ben Rupchis placed him first over the other "B" bucks (BULGING EYE, STARBY, BIZNES) in spite of the narrow rear end. BULGING EYE and BIZNES went on to get 90's. But Scott doesn't think BOSS will get one. His full sister also has a 92 just like his dam. She is also a SGCH, just like his dam. She also has 22,000 pounds lifetime and climbing.

CAPRIKORN CZARGATE HOT ROCKS #669 AS1765945

Born February 15 2016

American Saanen

+ V Ec V

HOT ROCKS is not the best buck we have for a Farmer that never shows.

Unless you need UDDERS

Almost an NSBA type buck - dam beautiful mammary - especially fore. But dam did not finish 1st or 2nd at Nationals. 8th.

Early on we said “HOT ROCKS will have BIG milk, but not the ULTIMATE MAXIMUM CAPRIKORN milk/fat/protein. A good choice for the dairy farmer that is looking for THE BIGGEST POSSIBLE improvement in the way his udders are built.”

But see the update at the bottom. We were wrong. He may be the max.

S: CAPRIKORN ZEPPA CZARGATE *B- please see Dam of HALLOUMI 6 pages back

DSD: SG CAPRIKORN TZAR’S ZINUSKA 11*M #957. LA-86 96%ile 305 3982 3.0% fat 2.3% protein

Scott was so excited about ZINUSKA he kept her from being sold, he also made her miss her shots. She is headed for 305 4000! Her march 26, 2011 test was 18 pounds. We will be happy to send you her test sheets.

DSDD: SHERRY’S TSM VANUSKA 10*M

D: CAPRIKORN BIZ FLASH OPAL #567- Showiest of the yearlings

In Scott’s opinion. #3 behind FLORENCE #577 and FIRE QUEEN #529 at Nationals. Also was having a very good baby lactation.

11.5, 11.0,10.5, 13.5 then 3.5 Got Mastitis

projected at 3354 102 84 before mastitis
96th percentile before mastitis

DD: CAPRIKORN BING DIAMONDS R 4EVER

DDD:SGCH CAPRIKORN RAMSES VVS1 5*M "ROCKET" 5*M LA-91 2X
WINNER OF LIFETIME MILK AWARD over all Saanens July 2013 & again July

'14 AND 3.5% lifetime fat

3.06 305 3894 131 3.4% 109 2.8%

lifetime 2,072 days 22,781 lb milk 3.4% fat

FLASH was the highest milking yearling on the yearlings first test.

And the highest projection after the second test.

We said "HOT ROCK'S dam FLASG is a show star, but not the very top of our milk." But see update.

We said "FLASH is going in the ring at the Nationals July 4th and if she smokes them, HOT ROCKS price will go up." She didn't kill them but she did really well. So we took the price from \$1,995 to \$2,795.

UPDATE -On August 7th the cdcb ratings came out and FLASH got a 96th %ile and CZARGATE got a rating high enough to make him #1. After mastitis the ctr knocked her down to 89 from 96. Except he only has daughters in one herd. So we took HOT ROCKS from \$2,795 to \$5,995 because he suddenly is the buck of the year and we want to use him in our breeding program.

On September 23, 2016 failed to collect semen while A/I guy was here.

Scott is giving him Ec. The appraiser gave him a +EcV+. Scott says excellent topline, Excellent width front and back. Looks great on the move. Excellent head and rear leg angulation. Not friendly enough. Shoulders are good not great. VG BC. Clean front legs. Back heels are a little shallow.

1-00 305 2361 77 3.2% 71 3.0% NICE! / 3-01 182 2127 64 3.01% 61 2.9%

YAMASAKI's litter brother went to Canada for \$1,300 where he scored 87 as a YEARLING also.

He had EC in final score in young stock. He went BIS, versus about 25 bucks.

YAMASAKI missed her SG because we did not have the serial numbers of her sire and dam entered correctly with the DHI tester.

This happens a lot! If you are on test, compare your test sheets with your registration papers

Very good looking. The shoulders are a little loose. Not as big as she could be at this stage.

THERE IS NO TELLING HOW GOOD THIS DOE CAN BE. Looking forward to her first DHI tests, even though yearling DHI info is not too reliable. After freshening, severely chopped fore.

DS: SG CAPRIKORN SNOW'S ZURICH +*B highest living ranked USDA Saanen buck

D: SG CAPRIKORN ZURICH CYLEX #2108 – above 99th %ile as of May 2016

DD: SG DAUGHTER'S X ILEX 9*M TOP TEN TWICE 98TH %ile -above

Weak pasterns, narrower rump than the other kids, hocks in.

Very friendly, comes up to be petted.

No Saanen has 3.4 protein. That was based on only 9 lab tests. We said, “so it should drop as the law of averages accumulates.” After 46 lab samples, she is down to 3.3% protein, highest of any Saanen we know. She has been one of the last to kid two years in a row. That is why the lactation starts with 1-02 instead of 1-00.

ATLANTIS – was 95%ile rank. Got very sick for a long time. Now 95th percentile again.

ATLANTIS friendly. In milk. Probably a “V” mammary. Definitely not an E in March of 2012. Really big, occasionally winging out, otherwise fabulous. After kidding in 2014 ATLANTIS was close to dying for weeks on end. We milked her lying down for weeks. So naturally the USDA has to give her a lower rating than she deserves. 91st%ile was still better than 9 out of 10 Saanens.

Video ATLANTIS: <http://www.youtube.com/watch?v=70YYn3JbhDc>

March 29, 2015 she’s BAAAACK! Atlantis drops 16.0 pounds at 35 days fresh. Aug. 1st 2015 USDA moves her up to 96% ile.

Awesome mammary. Except not the smoothly blended fore show people want. Why do we say “wise shopper?” Because all the normal dairy farmer asks is “How much did the dam milk?”

But the USDA computer program knows WHAT THE GENES ARE. And WHAT THE GENES ARE determines how much help a doe is going to give YOUR milk check in YOUR herd.

“How much did the dam milk?” is 80% Management. But your herd doesn’t have someone else’s management. What you need is genes.

The USDA computer program knows the genes because it knows what all the ancestors on test milked compared to their herdmates. AND it knows what all the descendents of all the ancestors milked compared to THEIR herdmates. Thousands of official tests compared to the 20 tests that went into a 4,000 lb once in a lifetime record for some other doe. And the GENES are what is going to show up year after year in YOUR herd. And the genes are better than 19 out of 20 Saanens.

S: CAPRIKORN YELSON BULGING EYE *B #154 LA-90 PTAM higher than any Elite Buck

DS: COACH FARMS WILLEM'S SNAP 99thPercentile
D: CAPRIKORN SNAP ECLAIR #4114 99th percentile
November 2014, ECLAIR and ECLARE are both big for their age.
March 2015 one of them has teats so small the inflations fall off #4114?
September 2016 NOT any more!
CUMIN made the most milk of anyone in our herd in 2014. And she was only two.
ECLAIR, weird udder. Jeremiah says "teats are fat, angled out and down." Scott likes the udder a lot. So does the judge.
Width and fat teats.
ECLAIR is a keeper, thanks to her dam and her own milk records.
ECLAIR second of 14 at Frederick September 2016. But a lot of the competition was 4 H'ers.
DD: CUMIN - Our best milker. Time will tell. Top Ten Three Times!!!
99th percentile LA - 90
305 **5142** lb! LA-89. Scott said "LA -89 a little high. Not enough attachment."
Then the next LA was a 90.

We don't really want to keep 3/4 Grades. But HOT PEPPER has the looks on top of the milk.
So we priced her to stay. Hopefully she will pop an ugly udder and a daughter and we can move her out.
MILK; It is possible that this is our only doeling where both the dam and sire are 99%ile animals.
HOT PEPPER has an excellent build. The Appraiser only gave her a "V". But she was our choice of all the kids to take to Nationals. Placed o.k. HIGHBALL and HOLLANDAISE live in Trinidad Tobago now.

Has front feet that turn out badly at the bottom, making his front legs knock Kneed.
Returning the buyer's deposit June 30, 2017.

04-08 324 4336 133 3.0% 112 2.6%

WIDEST udder in the herd. VERY IMPORTANT. You can't make them too low. You can't make
them stick out in the back or they pee on them. So make them wide! "

On 6/15/16, Scott said HIGH BAIL looks great but has loose shoulders. On 7/25/16 four Amish Dairymen
were here and HIGH BAIL was in consideration. But he was not one of the three they picked. What Scott
saw was “A lot of dairy character, very good escutcheon, goodlooking, maybe a little top line weakness
if you are looking for it.” There may be other BAR EXAM buck kids some day. But none sired by
ECLIPSE, who died.

All four of the young guys we want to prove: HERC, MEADOW HAWK, HONDURAS, and HOT
ROCKS were too closely related to one or more of those does so we picked HIGH BAIL. Now we will

have testing fees and appraisals invested in him so he became \$1,795.
We used HIGH BAIL but then he was bought & shipped to Venezuela.

But basically these two bucks are identical.

HIGH BAIL – “One of American Dairy Goat Associations Sire Development Bucks”

Tad bit narrow from the back. Little topline. Sharp withers, Deep rump, Very good in the front.
Almost tight toes. Very good shoulders.

In October Scott saw HIGH COURT and thought he was a little narrow from the front.

Dam of JALEX2: CALEX2

#3 All Time on the August 2014 Elite Buck List
D: SG CAPRIKORN ZECRET CUMIN 3*M #276 TOP TEN LA - 90

Three Top Ten in a row!
DD: SGCH CAPRIKORN WEALTH XTORT 2*M LA-91 26,000 lb. 2,000 days.
WINNER - LIFETIME MILK AWARD - 2014 NATIONALS grades
XTORT'S LIFETIME FAT IS AMAZING, SHE HAS AROUND 900 LB
The second highest lifetime fat in the herd is only around 600 something.

5145 has a large straight single horn. URRRGH. We were using him here. In her 2 y.o. lactation, CUMIN beat the entire herd, young and old. So far in 2015, as of May 1st, she is headed towards beating them all again. On her April 30th test, she beat the whole herd. When you see her huge mammary it is obvious what is happening without studying the DHI printouts. The mammary is shaped o.k. It is just set too low for the judges.

Dam of JUPITER: ERIDANA

SG CAPRIKORN BOSS ERIDANA #404 AS1665652 Born January 14, 2014
American Saanen
03-01 305 4779 159 3.3% 130 2.7% LA VEVV 89 uneven
02-01 305 4170 146 3.5% 116 2.8%

Dairy Farmers - as a kid too showy, too expensive.

As a milker was not doing well. We asked, are you a gambler?

SS: SG YELSON +*B - probably our milkiest buck before his son STARBY came along.

YELSON's dam -305 4990, previously the highest PTAM of any Saanen

S: SG CAPRIKORN YELSON MEADOW BOSS *B – very beautiful except narrow rear

SD: SGCH CAPRIKORN RENOV MEADOW VIOLET 10*M – 93rd %ile LA-92

DS: SG RON-TOM SARAH'S ZEPPA LA-90

D: SGCH CAPRIKORN ZEPPA CASSIOPEIA – showiest milker right now and she is 99%ile! LA - 92

DD: SG CAPRIKORN RENOV'S ZTARTREK – 2*M 99th %ile

“Really nice topline. Big, growthy kid. Shoulders on the loose side.” Judge Wolf.

She put ERIDANA second to #486 on page p. 68a. The Appraiser put ERIDANA second to #443, ELBA, on page 14. We chose ERIDANA to be our entry in the Senior Kid Class at the 2014 Nationals. Her dam, CASSIE WAS OUR ENTRY IN THE MILKING 2 Y. O'S. Just when we thought we had an incredible Milk & Show double threat, the Nat'l show judge put her 18th out of 26. YECCHH! The big knock is loose shoulders.

She was BY FAR the biggest kid in the class.

When we picked her as our kid to represent us at the Nationals. 486 EKORIA was cuter but half as big.

Bad decision. Judge Flickinger didn't care about size and flunked her for loose shoulders.

TIP: There is a reason the milk in stores comes from cows. The expense of Milking Labor is the same for a BIG animal as for a small animal.

Aborted December 2014. As a dry.

After Nationals, she beat everyone including the Cherry Glen Nat'l Show doe at Frederick in September 2014.

Freshened in very late in 2015, June 28, with radically uneven halves. Alice says that was caused by prefreshening mastitis. As of September 1, they are starting to be much more even., but still unshowable.

Just freshened in 2016. Still uneven. Friendly. She's really big. She's capable of cruising to well over 5,000 in 305 WITHOUT BEING PUSHED. We'll see. Update - #1 in herd April 2017 and May 2017 tests.

PART II of 2017 BUCKS FOR SALE

Rev. August 6, 2018

CAPRIKORN BE JEZ ZTAR #7103 AS1845205

JEZ ZTAR is the highest rated buck on the 2017 SDP

Born March 05, 2017

American Saanen

\$1,995

Sum 1379; Ready to go July 25, 2017

reserved by Herfurth

S: BULGING EYE – Recent Bucks

D: EZZTAR #480

– STARGATE FAMILY

These two are probably our milkiest bucks. 99% Sire and Dam both

#7103 - is for the people who want the same huge milk as JEZZ STAR, his brother, but are more interested in show than Amish Dairymen. He has a better build than his brother #7104

JEZ ZTAR has qualified for the American Dairy Goat Association Young Sire Development Program. He was tied with his brother for Number One. You can find that list in the United Caprine News or on the ADGA website or we can send you a copy.

SDP = Sire Development Program, sometimes called Young Sire Program is a computer program requested by ADGA and programed by the USDA geneticists. It is two parts percentile or rank, which is milk/fat/protein. And one part PTAFS, which is type.

Sire of JEZ ZTAR: BULGING EYE

SGCH CAPRIKORN YELSON BULGING EYE #154 1556751 Born February 26,2011

American Saanen PTAM **PLUS** 302 JULY 2016 LA-90

BULGING EYE has a PLUS PTAM of 306 as of Nov 2017. What does this mean? It is higher than ANY of the bucks on the Elite Buck List by USDA, CDCB, and ADGA as of Nov. 2017. So he increases the milk in his dau's more than any other buck so far as we know. BULGING EYE is a very heavily proven buck. CAPRIKORN YELSON BULGING EYE has 37 Dau's 7 of them have been on test. This means his PTAM will change over the years, but not by much.

Dam of JEZ ZTAR: EZZTAR

SG CAPRIKORN COBALT EZZTAR 4*M 99%ile #480 AS1683175

EZZTAR LA 87

Both she and her sister EZTAR #479 an amazing 99%ile. But all the computer has to work with is every record of every ancestor that was on test, every record of every tested descendant of every ancestor, whether or not THOSE ancestors themselves were on test, and just one yearling lactation from each of these girls. So, the REL is not huge. Still, 99 is the best they could possibly do and that IS their rating as of the December 2015 computer run.

EZZTAR 02-00 305 **4123** 145 3.5% 120 2.9% LA-87, full sister EZTAR #479 has 90

DD: SG CAPRIKORN RENOV'S ZTARGATE 2*M top ten – 98% LA - 90

#480- big escutcheon, big kid especially for age

We said "They are certain to have awesome milk, especially COMPONENTS."

EZTAR has a very nice rump angle which comes from her granddam SGCH CAPRIKORN RAMESES VVS1, LA -91 2x and 6 3,000+ lactations.

EZZTAR was big for her age, November 2014.

On 12/26/14, full udder, teats a little out to side, fore may be okay.

Not a classic Saanen nose, If you care deeply about "true Saanen type," you are shopping the wrong herd.

#480 was leading all yearlings in fat after two tests.

Scott says, November 2017: "I really like the build of this buck."

JEZ ZTAR was previously reserved by Ben Rupchis, one of the smartest breeders in the U.S.

Scott very seriously considered using this buck. JEZ ZTAR himself has the build we want and his dam is 99th%ile. But she only pulled a 87 at LA. Now we have JARLSBERG whose dam CUMIN is 99th%ile with a **90 at L A**. And HERCULES whose dam is 99th%ile with an 89 (and she is huge) And HAWK whose dam and grandam have **92's**. And the new son of 787 who is stone beautiful and whose dam is beating all 35 yearlings on the first three tests of her life. **And looks really good. So how do we need JEZ ZTAR?**

3-07 260 2784 84 3.0% 84 2.9% in progress

Has 2 LA-90's

DD: ZENUSKA - died young

It is easy to recommend FIRENZA! ANNENUSKA is 94th percentile, AND SHE IS PLUS 0.6 PTAFS, probably the highest combo of RANK to LOOKS in the herd, depending on how you weigh each of those factors. ANNENUSKA'S records are not impressive. But the USDA - DHIA rating of 94 knows what her GENES were, and it is her GENES that are being passed to FIRENZA.

As a yearling FIRENZA looks good but not great. FIRENZA is another name for Florence, Italy.

Smh VV+V code J +VV+ 84 BB

Why do we say "Opportunity for Dairy Farmers?"

Because FIRENZA is TOO YOUNG to have the 4,000lb lactation the other dairy farmers are looking for. BUT, the 97%ile tells you she WILL have one - and 4% b.f.! And B E is the bomb. And then her kid will cost \$1,000 more.

Lifetime 2,531 days 27,433lb and climbing. WOW!

She would have more but Alice won’t let her into the milking string anymore.

SS: SGCH RENOVATOR LA-92 - sire summary – Called by ADGA “ELITE BUCK LIST”

S: MOOSE - p. 20 of Recent Bucks (real name - CAPRIKORN RENOV VANDERBILT) former Sire

Summary Elite Buck List- now “INACTIVE

SD: KENT STATE - Top Ten Protein

D: SG CAPRIKORN KRUG’S **STARGATE** – page 59 – #1 in U.S.A TWO DIFFERENT YEARS! (All Breeds)LA-90 & LA-89 & BUIS vs. 24 milkers.

Not only did WIARA start early, 9 months of age, but very few does can do 2,900 ending at 8 ½ years. .

Her dau ANDROMEDA was 10th? yrln g milker at National Show

WIARA was 97 Percentile rank. Her doe Yiara owned by Scarlett Payne.

Our other Top Ten that year was WIARA’s niece YIN YANG #821.

WIARA bred herself and kidded herself at 9 months of age! AND had a 16 lb test! Her dau #6112, was the third doe to kid in 2017,even though she herself was a March baby. WIARA is super friendly. So is her son, HERACLES #6111. WIARA had a PTA for stature of plus 9.9, which was bigger than any buck in adgagenetics. At 1 yr & 6 months, bigger than the mature does. (MOOSE was a giant). What if we could develop a strain that always kidded at well under one year and also milked great? So in Fall 2013 we were using BING, because **he** was born when his dam was 8 ½ months old. But he was bought. The result of that breeding is #4124, NEW ERA. He was bought NEW ERA dau’s were kidding early. **WE CAN SAY THAT THE WIARA DAU’S GROW FAST AND MILK BIG AT A YOUNG AGE.**

Our oldest doe as of February 2016 and TESTED PREGNANT! We used her son, NEW ERA, #424.

And we used her son HERACLES #6111.. Him very friendly with personality. WIARA big head with a lot of love.

Where she really helps us is with a very wide rump. We want that so we can have giant escutcheons.

#1 in U.S. Saanens for Protein in 305 days 10th Place Milking Yearling @ Nationals

If you saw CHEYENNE from behind you would know right away you want her kids.

We said: "Her dam was ranked 99th percentile and her sire is our best milk buck out of those with a positive PTAFS. It is scary how good CHEYENNE could be. As a kid she has been shown only once and was Grand Champion in milk. Before she turned two she was first in both rings as a milking yearling.

Then we stopped showing her. We know the body is there and we know the milk is there and we know the components are there. If she gets the awesome mammary she becomes a \$5,000 doe and her babies sell for 1,500. If not, she is a 1,500 doe and babies sell for 600. It's too bad that U.S. Breeders put way too much weight on mammaries and way too little weight on milk/fat/protein. But that IS the way it IS."

2/19/14 Scott said "an E mammary – maybe not enough fore. Fabulous rear and teats."

Shown only once in 2015 and of course she could not beat CASSIOPEIA. CHEYENNE got coded "A" for acceptable for feet. Rear feet weakness is the very reason the Ryals turned down WINNEMUCCA as a kid. Since we breed for strong rear pasterns, we knocked CHEYENNE'S PRICE DOWN BY 400 AND HER KIDS DOWN BY 300.

Second place at Nat'ls July 4, 2016 with her dau FLORENCE 3 PAGES FORWARD.

August 8, 2016 - BEST IN SHOW versus 54 milkers. (2nd leg) Price went up 1,900.

In the ribbons 2017 National Show

smh code 90 ks

JACKSON's sire CZARGATE makes weird ears. They are folded. When the kid grows up they unfold and become normal. So maybe JACKSON will do that.

Are you:

A. A dairy Farmer Customer- You don't care about EARS
OR

B. A saanen Breeder- You **should** care!
Registration issue??

Of course JACKSON's kids will be only 1/4 CZARCATE so the issue should disappear.

Basic Bob says: *"Scott, since JACKSON is rated number 4 in the whole U.S., how come he is only 995 when you have so many bucks that sell for more than that?"*

Scott says: *"Bob, because that Young Sire Development Program is bogus for our customers - Dairy Farmers. It has type mixed in there. 1/3 of the score is type. Stick to the percentiles. There is no type in them. Just milk/fat/protein."*

Secondly, our dairy farmer customers don't look at her very good fat %. She never did 4,000 in 305, and THAT is their main criteria.

Ended with Lifetime 1,396 days 15,575 pounds 2.8 b.f. 2.8 pro

Finished in only 4 shows, a total of 6 rings.

An ELITE DOE (which strictly measures milk/fat/protein genes). VIOLET had ”INVERSION” - more protein than fat. We chose VIOLET’s twin VERN to breed the awesome does STARGATE P.33 and VENICE P.28a. Nine pounds at birth. We named the dam to honor Tina Gilchrist’s immortal GCH FOOTHILL FARM MEADOW SPRING TOP TEN LA 90. Dam had the big arc 35. And Rear Udder height: 38. Dam had extra teat. VIOLET started life with the RENOV steep

rump. That changed. We don't want to waste time on conformation but one item we do want is "The Big Arc"! We used to have big wide escutcheons. When CRUZERIO did 5100, totally smashing our previous record, everything became lined on her. Then we lost the Big Arc. SPRING's descendants will bring it back. As of November 2012, Violets lifetime was 1,396 days 15,575 milk. She had cream, not white hair and an undesirable Saanen nose. It's so easy to be the top Saanen milk herd. The other breeders select for color and noses. We can just keep selecting for milk/fat/protein, all wrapped into one number called "percentile," or "Rank".
VIOLET "HAD IT ALL"

It is very unusual for their to be two straight generations of 92's. There are very few Saanen 92's in any given year.

That said the SGCH's and the Top Tens make HAWK a Spotlight Sale buck. But the sale is in Texas, not dairy country, this year. HAWK is longer than the other buck kids like his dam and her brother, MEADOW BOSS, one of our main herd sires.

This one hurt! MEADOW HAWK had a full brother, MEADOW HAWK 2. He got what we call "the Bulldog" - front shoulders loose, front legs crooked-bowing out, winging out. SALE BARN.

A \$5,000 hurt.

DDS: GCH +*B CAPRIKORN JUDGE'S KRUGERRAND LA-91 Sire Summary.
DD: RESTITUTION 3*M LA-90
DDD: **JUSTICE!**

When Ron came by to pick up the doe Ann Estep had bought, that doe was sick. We don't sell sick or injured goats. So we substituted CINCERITY, CENCERITY'S full sister, even though she was priced \$395 higher. A LOT OF THINGS HAPPEN WHEN YOU BUY A SAANEN. IT HELPS TO KNOW WHO YOU ARE DEALING WITH FROM THE START OF YOUR SHOPPING EXPERIENCE.CENCERITY'S mammary was disappointingly small as a baby. But her dam did the same thing and came back and went perm and Top Five. And her dam ended with a mammary too BIG.

CENCERITY's teats are right, angling very slightly in. This is what we want to key on because most Saanens teats are aiming slightly out. BUYER'S TIP: Angling out is not good. Maybe your doe won't get mastitis. But maybe she will. You have ENOUGH problems as a Dairy Farmer. However the teats are too narrow. But they are long enough for our handmilking customers. **WE ARE USING HER SON, HONESTY. If you are a dairy farmer, that's all you need to know to reserve her next son for YOUR herd.**

Sire of JUDGE ROY: HOT ROCKS

CAPRIKORN CZARGATE HOT ROCKS #669

AS1765945 + V Ec V

American Saanen

Born February 15 2016

An excellent choice for the educated Dairy Farmer who understands Percentiles, also called ranks. **Especially** if you need udders.

Almost an NSBA type buck - dam beautiful mammary - especially fore. But dam did not finish 1st or 2nd at Nationals. **8th.**

HOT ROCKS is overpriced because we have an investment. Daughters that have cost us DHI and LA fees. And he needs quite a few tested daughters before he will be proven one way or the other.

Early on we said "HOT ROCKS will have BIG milk, but not the ULTIMATE MAXIMUM CAPRIKORN milk/fat/protein. A good choice for the dairy farmer that is looking for THE BIGGEST POSSIBLE improvement in the way his udders are built."

But see the update at the bottom.

SS: SG RON-TOM SARAH'S ZEPPO +*B LA-90 - his dam 99th Rank PLUS LA-91 Elite Buck List #7 on the latest USDA Elite Buck List (rating composed of milk/fat/protein)

DSD: SG CAPRIKORN TZAR'S ZINUSKA 11*M #957. LA-86 96%ile
305 3982 3.0% fat 2.3% protein

Scott was so excited about ZINNUSKA he kept her from being sold, he also made
her miss her shots. She is headed for 305 4000! Her march 26, 2011 test was 18
pounds. We will be happy to send you her test sheets.

DSDD: SHERRY'S TSM VANUSKA 10*M

D: CAPRIKORN BIZ FLASH OPAL #567- Showiest of the yearlings in Scott's opinion.
#3 behind FLORENCE #577 and FIRE QUEEN #529 at nationals. Also was having a very good
baby lactation.

11.5, 11.0, 10.5, 13.5 then 3.5 Got Mastitis
projected at 3354 102 84 before mastitis

96th percentile before mastitis

DD: CAPRIKORN BING DIAMONDS R 4EVER

~~SGCH~~ CAPRIKORN RAMSES VVS1 5*M "ROCKET" 5*M LA-91 2X
WINNER OF LIFETIME MILK AWARD over all Saanens July 2013 & again
July '14 AND 3.5% lifetime fat
3.06 305 3894 131 3.4% 109 2.8%
lifetime 2,072 days 22,781 lb milk 3.4% fat

FLASH was the highest milking yearling on the yearlings first test.
And the highest projection after the second test.

HOT ROCK'S Dam is a show star, but not the VERY top of our milk. The Sire, however, should
kick the milk up through the roof. So HOT ROCKS is worth the investment if you want a lot of
help with your udders and feet in ADDITION to big milk checks. But if you only need
milk/fat/protein, skip on to a cheaper guy.

We said "FLASH is going in the ring at the Nationals July 4th and if she smokes them, HOT
ROCKS price will go up." She didn't kill them but she did really well. So we took the price from
\$1,995 to \$2,795.

UPDATE -On August 7th the cdcB ratings came out and FLASH got a 96th %ile and
CZARGATE got a rating high enough to make him #1. After mastitis the ctr knocked her down
to 89 from 96. Except he only has daughters in one herd. So we took his price from
\$2,795 to \$5,995 because he suddenly is the buck of the year and we want to use him in our
breeding program.

On September 23, 2016 failed to collect semen while A/I guy was here.

As a kid - "Scott is giving him Ec. The appraiser gave him a +EcV+. Scott says excellent
topline, Excellent width front and back. Looks great on the move. Excellent head and rear leg
angulation. Not friendly enough. . Shoulders are good not great. Clean front legs. Back heels are
a little shallow. "

As a yearling, Scott is saying he looks like shit.

Dam Of JUDGE ROY: HONEST JURY

CAPRIKORN ECLIPSE HONEST JURY #6152 AS1778409 Born March 14, 2016
American Saanen

She is running second of all the 2 yo's as of May 3, 2018.

SS: SG DES-RUHIGESTELLE ELROS ++*B LA 91 +204 PTAM 89%ile

ELROS is #14 on the USDA DHIA ADGA Elite Buck List October 2017

S: SG DES RUHIGESTELLE ECLIPSE +*B AS1501878 LA-89; Died Feb. 2016

He was number one on the Elite Buck list when we bought him for \$3,500. He was old. As of October 2017 he is in the #3 spot.

SD: SGCH DES-RUHIGESTELLE ELENDILI 8*M TOP TEN life 1787 days 20,020 lbs

DS: CAPRIKORN ZECRET KEEPER p. 33 RECENT BUCKS 97 %ile + 0.4 PTAFS

YENUSKA out milked the other yearlings and she was the youngest milker!

"Dear Caprikorn Farms, I wanted to let you know how much I appreciate your bucks. Zecret Keeper's daughters are so beautiful. I can't bear to sell them! Thanks for your good work." -Love Brad

Scott looked at a pen with 5 ZECRET kids and his conclusion was: "Good looking, escutcheons only average, a little higher in the hips than in the withers, rump width only a little better than average, otherwise excellent." ZECRET KEEPER has 37 registered dau's as of January 2016.

D: SG CAPRIKORN ZECRET BAR EXAM *M 97%ile

3rd at Nationals

"Scott said Will Go Up"

01-07 328 3147 113 3.6% 91 2.9%

"Now he says again "will go up"

02-07 305 3540 112 3.2% 101 2.9%

03-09 305 3925 128 3.3% 102 2.6%

04-08 305 4221 128 3.0% 108 2.6%

04-08 324 4336 133 3.0% 112 2.6%

WIDEST udder in the herd. VERY IMPORTANT. You can't make them too low. You can't make them stick out in the back or they pee on them. So make them wide! "

JUDGE ROY had weird back legs at birth and Scott marked him for Sale Barn. Now his dam is milking great for a yearling, has made 99th Percentile and his back legs are normal.

When the computer downgraded HONEST JURY from 99 (one in a hundred) to 98 (1 out of 50) Scott cut JUDGE ROY'S price from \$3,495 to \$1,295 because as a yearling with 99, there was no telling how much more money ROY could make for a diary. But now his range is capped. 99 could be correct again. But not a MONSTER 99. And her PTAFS is not great.

CAPRIKORN HERACLES JEDI KNIGHT

"As for who to breed them to? You say whomever you wish. But not ZEPP0 ever again! His kids are too big."(From a customer who leases our bucks). ZEPP0 has 46 registered dau's as of January 2016. His dau's are BIGGER, AND THAT IS IMPORTANT TO US. Because a 16 lb milker that is small is more likely to give a dairy farmer health problems. But a 16 Lb. Milker that is BIG can handle it.

ZEPP0 is Mr. Protein. He has the second highest protein % of any of our bucks, ever. To breed for higher fat and protein you have to sacrifice a little milk. The winners of the Four Milk and Fat Awards at the 2016 Nationals were both ZEPP0 dau's.

97 %ile

DD: SGCH CAPRIKORN WEALTH **XTORT** 2*M

XTORT's mammary milked way down. This means she should get an "e" for udder texture. But the Appraiser wouldn't give her one. The Linear Appraisal program is great but it DOES HAVE a box for udder texture and it DOES NOT have a box for TOPLINE or SHARP WITHERS.

XTORT is not a big doe, making her milk records even more remarkable.

XTORT'S DAU CUMIN IS BEATING THE ENTIRE HERD as of August 2014, even though she is only 2 y o. She made Top Ten. And CUMIN again beat the whole herd in 2015. And so far in Dec of 2016. Looks like she will make 5,000 in 305.

smh code H 91

The pedigree is so deep that HAZELNUT has to MILK GREAT. If you feel that is a brash statement, put your money down in a wager and we will give you great odds.

But JUSTANUT was born so late that no one will buy him for the 2017 Fall breeding season. So maybe we use him here in Fall 2018.

This Mature Buck Section is part of the doc called 2017 Bucks for Sale

YOU JUST HAVE TO HAVE A MATURE BUCK?

Best way to get one is buy a buck kid and wait a year.

SGCH CAPRIKORN ZURICH COBALT #230 AS1614117

DDD: CAPRIKORN CASH'S MY DIAMOND 3*M

DDDD: CAPRIKORN ICE FORCE 2*M LA-88 294 3680 117 3.2%

COBALT already has milking dau's at CAPRIKORN. He is a fundamental part of our breeding program. His sister went for 2,600 and his brother went for 2,395 So Alice jacked up the price because she would like to have a ROCKET son for a change. All the others were bought This was an awesome looking baby buck. He had that sweeping look judge's love, starting from high sharp withers, traveling back along straight topline to a very good rump angle, being lower in the rump than the withers. Then he became a yearling. Our yearling bucks are ugly. One place Scott can fault him is the rump could be wider. Secondly, ZURICH has a slight minus for PTAFS.

Cobalt is plus for type.

His PTAM, PTAF and PTAP% would make him about the equivalent of 95%ile. But although he has 24 registered dau's none have ever been on a test in a DIFFERENT herd than CAPRIKORN. So he does not print on the Top Buck (cdcd.us) or Elite Buck lists. IT IS RARE FOR A 95th %ILE BUCK TO ALSO BE POSITIVE FOR TYPE.

You get the best one! Which right now is CZARBUCK Because CZARGATE has a broken back leg. We
sell semen from him. TWO OF CZARBUCKS KIDS WERE NARROW AND WEAK WHEN VIEWED
FROM THE FRONT. But the rest are built RIGHT. Same dam. CZARGATE is making what we call
"folded ears." Where this comes from we have no idea. His babies have it but almost all of them
straighten out when they get older. But a few DON'T. Of course, dairy farmers don't care because
CZARGATE GETS THE MILK CHECK UP! But if you are a devotee of "true Saanen breed type" you
would avoid CZARGATE.

DD: SG CAPRIKORN RV YGERNE 12*M **TOP TEN** LA-92 9th place at Nationals.

YEARLING LA-86 +EEV

LA-91! 3yo

LA-92! EEEE 4yo

03-11 269 **4427** 129 2.9% 120 2.7% Top Ten

She was on pace for 5,000 in 305 June 2012.

YGERNE was cruising at 19lb per day in may 2011 and going up. Had (more protein than fat) but it changed.

HAD A SHOT AT 5,000 THIS LACTATION!! The trip to colorado and back slowed her down.

10th Place 4 y.o. at 2012 Nationals!! (out of 19) Ben Rupchis, an extremely picky breeder, is starting a new super herd. He chose YGERNE's son DEBLIN as his herd sire.

Smh code 86J, 91J!, 92W

DOBRE pronounced DOUGH-bray is clearly the milkiest yearling out of about 30. AND originally we rated her about the 3rd to 5th showiest, miracle of miracles! Then Judge Wolf picked her out over all our yearlings to make the trip to Nationals. THEN she defeated ZTARTREK, AIRACOBRA, and CASSIOPIEA on sept. 13, 2014!! (Normally YEARLINGS DO NOT DEFEAT OLDER MILKERS!) So after we prove out BLUE and BULGING EYE and BOSS and HOT ROCKS, ELYAN will be our next herd sire. Unless someone buys him. ELYAN's first couple kids look great, but it's too soon to tell A Lot will depend on how CZARBUCK proves out.

Why is this buck this cheap? Because the normal buyer wants to see a 4,000 pound lactation and she doesn't have one. The normal buyer can't get the fact that 3900 with big components does more for the milk check than 4100 with normal components.

Winner of Total Doe award, 2011 National Show. Total doe equals milk, show placing, linear appraisal. XING won all four Milk Awards on July 25, 2011. And was TOTAL PERFORMER again in 2014.

DD: SGCH CAPRIKORN RAMSES VVS1 "ROCKET" 5*M LA-91 TWICE

Ending her life with 2072 days 22,861 pounds milk, 792 fat, 650 protein. Highest LIFETIME fat and protein in the herd at the time of her death.

Highest Lifetime Milk Award at 2014 National Show.

We have his son HONDURAS from a doe even stronger than XING so we can let him go, but he IS scheduled for a few of the "Milk and Show" does in the Fall 2018 Breeding Program here.

FLINT looks fabulous. But if you figure YELSON at 90thile and XING at 70, then he averages out to 80, or only better than 4 out of five TESTED Saanens. As a dairy farmer you can get a bigger milk check from almost any other buck on this list. Unless you are paid by straight pounds of milk, not components. If you are paid by pounds of milk only, then he is wonderful because it is the weak butterfat that pulls XING'S value down.
