2018 Bucks for Sale. *and we have put a few of the older ones in the back*

June 4, 2019

In WordPerfect under: 2018 Bucks for Sale

For the First time, We have Yearling Bucks!
They are behind the button, or in the doc, called **2017 BUCKS FOR SALE**

If you want one, send a deposit of 10% (or a \$100 minimum) and a contract2

*Contract2 is behind the button, "Order Forms," on the website.
Or call us (301) 834-8030 and we will fill it out!

THANKS!!

A dairy farmer wrote in with the question:

“Is it really worth paying more for the more expensive buck?”

Scott wrote back, in Spring 2016:

“The answer is I don’t know.

Here is one dollar and cents approach I thought of.

There are 16 **99th** %ile does. The average PTAM of those 16 is 333.

There are 16 **95th** %ile does. The average PTAM of those 16 is 230.

So it looks like for every one percentile drop the milk goes down by 26 pounds. HENOOSKI had a dam with a PTAM of a 93 so that would be 7 percentiles down from HAN SHOT FIRST.

26 pounds times 6 percentiles = 156 lb /year. So that would mean on average his daughters will give you 156 less pounds every year, year after year. And his granddaughters will give you one - half of 156 pounds year after year. So if you are milking 80, then $80 \times 26 \times 7 \times .41/\text{pound} = \$5,970$

80 does x 156 pounds = 12,480 pounds per year.

12,480 pounds per year @ \$40cwt = \$4,992.

5 years of milk from each doe equals \$24,960.

That’s my guess.”

A lot of work needs to be done to make this computation more accurate.

First, what about the granddaughters and great granddaughters?

Nothing was added to the \$24,960 for them.

Second, probably starting by comparing the 99th percentile to the 95th percentile is not right. Because the 99th percentile will have a few that are REALLY crazy for milk.

So, if we found 16 does in 85th percentile and averaged their milk (PTAM). Then subtracted that number from 230, which is the average for the 16 in the 95th percentile. That would give us the drop for 10 percentiles. Dividing that by 10 would probably give us a more accurate figure than 26 pounds per percentile.

TESTIMONIALS

“The Caprikorn does are amazing. They so out class the rest of the herd it’s not funny.”

-Trent Hendricks, MO

“A big congratulations to your TOP TEN DOES last year. I keep reading on and on and kept seeing all your listed. Yea Caprikorn!”

-Tom & Roni, CA

“We have 144 CAPRIKORN HOT SAUCE daughters. The YEARLINGS from him tower over a lot of the older does.”

Keith from New England

“We LOVE our Caprikorn Farm goats – they are not only very productive, they are lovely personalities – smart, but not overly pushy.”

-Bedford Blueberry Goat Farm, MA

“I would say you are probably the top herd in the nation now with those classification scores and that milk production.”

-Janelle Anderson, 30-year Saanen Breeder, NE

“Our KID ROCK daughters are milking 10 pounds at 10 months of age!”

-Emanual Schneider, PA

“By the way, HOT ROD is doing great. His girls have had their first kids. He definitely improved our genetic pool.”

-Andrea Gauvreau, Quebec

“Scott, bought seven does from OK. Had never seen such milk or quality in a goat herd. When asked about the genetics he said they were Caprikorn.”

“They are doing 18 pounds a day. The yearlings are doing 13 pounds a day.”

-Thomas Childress, Hereford Breeder, TX

“I am overly pleased with EARTHMAN and the improvements that I can already see that he has made to our farm.”

-Wendy, Bootleg Farm, GA

“My name is Shereen and I bought a buck from you a couple years ago. Fantastic buck - I love this buck!”

- Shereen Wilcox, PA

“We have 105 does..Just so you know the Caprikorns are the nicest and largest ones. We can always pick them out just by looking at them.”

-Lori Lyons, WI

“Dear Scott, that is some Sales List! I know your goats are the BEST!”

-Brad Parker, Pipe Dreams Fromage, PA

“Hey Scott, I got to milk some of your best goats when Alice was here; was impressed!”

-Levi Petersheim, IA

“The Caprikorn girls are doing FANTASTIC! They are exceeding our expectations. They are always coming in with full bags and they don’t want to slow down production very quickly when it is time to start drying up.”

-Jared Rebling, Brighton, IA

“AMBER is a milk machine. I appreciate the temperament of all your goats; they are so nice and loving!”

-Scarlett Payne, Utica, OH

“A lot of the ones we have from your bucks freshened at 11 months and they’re just fantastic.”

-Keith Tiffi, VT

“DILL and DYLEX are **amazing**, and as milking yearlings were amazing also...”

-Lila Streff, SD

“I appreciate that you are willing to refund our deposits; we have decided to back out of all 11 dairy goat kids.”

- Trisha Bickel, Hamburg, PA

“I have appraised all the major Saanen herds and you have the best feet and legs.”

-Linear Appraiser, American Dairy Goat Assn., 2013

“I am so very glad to be able to work with you as you are one of the most reliable and honest goat breeders I know. It is such a pleasure to have complete confidence in a purchase to know that it will be totally as represented.”

-Teddy West, OH

The 95th percentile does average **243** per PTAM.

The 98th percentile does average **302** per PTAM.

Increase of 59 pounds per year.

There are 3 percentage points between 95 & 98.

Therefore each percentile translates into **20** pounds of milk per doe per year.

So, for example, if you have a normal non-tested herd, that MIGHT be 40th percentile.

If you use 90th percentile bucks, you move up by 1,000 pounds per doe per year.
(20 pounds times 50 percentiles)

If you are getting \$539 cwt, your income goes up by \$39,000 for every 100 does you milk.

TABLE OF CONTENTS

Here is a list of the 2018 bucks that are still HERE as of May 27, 2018.

There are no page numbers - they are listed in Birthday order

Warning CAPRIKORN yearling bucks are usually ugly. Pretty as babies. Handsome as older bucks,

D: SG CAPRIKORN FRA HULA 4*M #654 98%ile,

01-00 280 2567 91 3.5% 73 2.8% awesome baby lactation.

01-11 140 2247 *in progress*

PTAM Plus 300! We said, in this space: "HULA'S mammary is unacceptable. Teats are pointing far out. Rear is bulging." Then Ben Rupchis came on 9/10/18 and made her our #2 showiest 2 y o behind HALLOUMI.

She is COMPLETELY outmilking all our 2 y.o.'s through August 2018!!

DDS: CAPRIKORN ZEPPA CZARGATE

On the latest Elite Buck List June 2017

DD: SG CAPRIKORN CZARGATE FOXTROT 3*M #527

98%ile as of June 2017. Dropped to 92nd August 2018. Yearling LA +E++ 85

01-00 305 2455 102 4.2% 78 3.2% fabulous, especially components.

Not having a great lactaion this year.

Distant line on STARGATE. As a yearling, FOXTROT and her kids are EXCELLENT CHOICES for the Dairy Farmer that wants big production - yes - but is also willing to pay a LITTLE extra to get that E mammary into his herd. She can definitely kid out a herd sire if she is bred to a big milk buck.

Not a looker. Really nothing wrong with her, but not one of the showiest of the milking yearlings in April 2016. Came into her own as a 2yo.

DDD: CAPRIKORN BLUE ESTEFAN 2*M #422

02-03 288 3475 116 3.3% 97 2.8% Awesome for a TWO year old! VVEV 88 3yo

EROICA and ESTEFAN are both big for their age, November 2014.

After freshening at two years old, the HULA udder is poor. Jeremiah and Scott wanted to send her to the sale barn., But she was number two in the whole herd (milking 74) on the March 10 DHI test.

So KETJAK is definitely NOT for an NSBA type Saanen breeder in search of the perfect mammary.

GOOD DEAL FOR DAIRY FARMER!

HULA's udder is a mess but her ancestors had nice mammaries and JALEX2 is half of KETJAX's genes. And JALEX2 brings plenty of E mammaries. When we werewould have thought this mammary was O.K. And the Appraiser didn't bomb it. The difference today, 40 years later, is we don't like teats that go out. The ADGA judges don't seem to mind them as much as we do.

CAPRIKORN HERC KURD *B #839 AS1914529 Born January 29, 2018
American Saanen Very Good Looking Never Appraised

Beautiful Buck kid, close to Perfect All around **Now \$1,995**
1458 **Was \$3,895**

SS: ECLIPSE ++*B
AS1501878 LA-89; Died Feb. 2016

He was number one on the Elite Buck list when we bought him for \$3,500. He was old.

As of October 2017 he was in the #3 spot. He died. As of August 2018 he is back in #1.

S: CAPRIKORN ECLIPSE HERCULES *B #6130

Good rump angle, Powerful. VG all around. Very friendly. This is a very well built buck. Scott guessed that he would appraise **92** when he grew up. The we foundered him.

SD: SG CAPRIKORN BOSS ERIDANA 4*M
99%ile LA VEVV 89 2 yo
02-01 305 4170 146 3.5% 116 2.8% LA + EVV 88 3 yo
03-01 305 **4779** 159 3.3% 130 2.7%
03-01 361 5189 177 3.4% 140 2.8%

Dairy Farmers - as a kid too showy, too expensive. In 2015 we said "As a milker not doing well. Are you a gambler?" No one took her when she was cheap and now she is very expensive.
BUYER'S TIP; don't pay too much attention to baby lactations. Look more at the dam and sire.

DS: SG CAPRIKORN SNOW ZURICH ++*B

LA-90

in 2011 he was THE NEW #1 BUCK OF THE SAANEN BREED! AND AGAIN ON THE NOV. 2015 LIST!! NUMBER ONE FOR MILK/FAT/PROTEIN GENES. **Still number one in Jan 2017**

D: SG CAPRIKORN ZURICH HALLOUMI 4*M #634 98thoile and the best looking of all the 100 does born in 2016. **E Mammary.**

Baby lactation only 01-00 287 2046 3.5% Fat 3.1% Protein.
01-11 (2 y.o lactation) headed for 3400! Excellent!

Yearling LA 88 Will go up. 89 is the highest any yearling can get.
You have to wonder how high HALLOUMI'S 98%ILE would be if she had not been dragged out to 6 shows including Nationals for a week during her lactation.
HALLOUMI is the showiest of the yearlings as of June 2017.

And the showiest of all the 2 y o's as of September 2018. 2 legs as only 2 y.o.

DD: SG CAPRIKORN CZARGATE FROMAGE 3*M #537
American Saanen 97%ile as of June 2017, Yearling LA +VVV 85
01-00 305 2476 83 3.4% 77 3.1% awesome baby lactation
Now this is a half sister of CUMIN, who outmilked the entire herd three straight years.
And also EXTRACT #490, who was KILLING them as a yearling, and beat 4,000 as a 2 y.o.
FROMAGE was looking good, now chronically lopsided due to severe mastitis Maybe FROMAGE will mother the buck we are looking for.

Scott cut KURD's price in half when HALLOUMI only did 13.6 on her first 2018 test. And down another 1,500 when her second test was 13.8. And again when the next three tests were 13.8, 12.0, and 13.1. On August 4, 2018, even though she was only a 2-year-old, the judge made HALLOUMI Grand over an AOP class of around 17 does.

:S: SG ZEPPO +*B

Young Stock Final Score "V"(Just missed Ec)

#3 All-time on the USDA Top Buck List DEC 2016 LA-90

ZEPPO has 46 registered dau's as of January 2016. His dau's are BIGGER, AND THAT IS IMPORTANT TO US. Because a 16 lb milker that is small is more likely to give a dairy farmer health problems. But a 16 Lb. Milker that is BIG can handle it.

ZEPPO is Mr. Protein. He has the second highest protein % of any of our bucks, ever. To breed for higher fat and protein you have to sacrifice a little milk. We already have half a dozen does that come in at 3,9xx lb. You might pass over these does in favor of a buck kid from a doe that comes in at 4,xxx.

BUT BE AWARE THE HIGHER FAT/PROTEIN DOE BRINGS IN A BIGGER MILK CHECK.

The winners of the Four Milk and Fat Awards at the 2016 Nationals were both ZEPPO dau's.

And two of the 2017's and four of the 2018's - 2 Saanens, 2 Grades

DSSD: SGCH CAPRIKORN WEALTH XTORT 2*M LA-91

26,000 lb. 2,000 days.

WINNER - LIFETIME MILK AWARD - 2014 NATIONALS grades

XTORT'S LIFETIME FAT IS AMAZING, SHE HAS AROUND 900 LB

The second highest lifetime fat in the herd is only around 600 something.

XTORT made TOP FIVE over and over. She beat our whole herd in 305 at least twice.

Lined on CRUZEIRO, but only 3/16ths.

We had a disastrous test on Oct. 20, 2009, but XTORT held her milk. Maybe she likes to eat soggy round bales out in the rain. Her sister lives in Canada now.

Perfect buck kid for dairyman that does not register. A long history behind this doe. We got an employment application from a person working in the Likuni Boys School in Africa. He became our herd manager and later started his own unregistered herd with our stock. When one of his does, PEPPER, went 5,000 on DHI, we got her dau. That was VANILLA, who completely lost one rear foot but kept on trucking with a **wide** mammary..

XTORT is for people who love goats who love people. She was the only kid to break out of the kid prison to follow you around while you do chores.

As of April 2017 she was first in lifetime milk, fat and protein. Her lifetime fat was OVER 1,000 LB.. The closest doe to her only had 700.!! Milk **OVER 30,000 lb.** Some cows don't get that far.

XTORT's mammary milks way down. This means she should get an "e" for udder texture. But the Appraiser wouldn't give her one. The Linear Appraisal program is great but it DOES HAVE a box for udder texture and it DOES NOT have a box for TOPLINE or SHARP WITHERS.

XTORT is not a big doe, making her milk records even more remarkable.

XTORT'S DAU CUMIN IS BEATING THE ENTIRE HERD as of August 2014, even though she is only 2 y o. She made Top Ten. And CUMIN again beat the whole herd in 2015. And so far in May of 2016.

PREGNANT - THANK YOU GOD! - FEBRUARY 2016 - NINE YEARS OLD! But aborted.

Not pregnant Dec 2016. She can stay here though.

Yes Pregnant February 2017 10 years Old. Pray she can carry.

Xtort has 7 related dau's.

Their ratings, which are right there on adgagenetics are:

89, 99, 84, 92, 94, 98, 97

D:CAPRIKORN FARRO JUXTA #7102

DDS:SG CAPRIKORN YELSON MEADOW BOSS *B

#3 All-time on the USDA Top Buck List DEC 2016 LA-90 #11 on Dec

ZEPPO's dau's are BIGGER, AND THAT IS IMPORTANT TO US. Because a 16 lb milker that is small is more likely to give a dairy farmer health problems. But a 16 Lb. Milker that is BIG can handle it. ZEPPO is Mr. Protein. He has the second highest protein % of any of our bucks, ever. The winners of the Four Milk and Fat Awards at the 2016 Nationals were both ZEPPO dau's. Also the 2017 305 Milk & Fat Awards, and the 2017 Lifetime Awards.

DSS: SG ECLIPSE ++*B

AS1501878 LA-89; Died Feb. 2016

He was number one on the Elite Buck list when we bought him for \$3,500. He was old. As of October 2017 he is in the #3 spot.

DS: CAPRIKORN ECLIPSE HIGH BAIL *B

One of American Dairy Goat Associations Sire Development Bucks

Tad bit narrow from the back, little topline, dip, sharp withers, deep rump, very good in the front. Almost tight toes. Very good shoulders.

Young Stock Final Score "V"(Just missed Ec)

#3 All-time on the USDA Top Buck List DEC 2016 LA-90 Whiteside

ZEPPO has 46 registered dau's as of January 2016. His dau's are BIGGER, AND THAT IS IMPORTANT TO US. Because a 16 lb milker that is small is more likely to give a dairy farmer health problems. But a 16 Lb. Milker that is BIG can handle it.

ZEPPO is Mr. Protein. He has the second highest protein % of any of our bucks, ever. To breed for higher fat and protein you have to sacrifice a little milk. We already have half a dozen does that come in at 3,9xx lb. You might pass over these does in favor of a buck kid from a doe that comes in at 4,xxx. BUT BE AWARE THE HIGHER FAT/PROTEIN DOE BRINGS IN A BIGGER MILK CHECK.

The winners of the Four Milk and Fat Awards at the 2016 Nationals were both ZEPPO dau's.

Cheap because we already have a CALEX2 son (JALEX2) #796 and we are using him.
Alice meant to type in KALEX2 when she registered him & goofed.
Awesome Escutcheon, Rear heels are shallow

SS: SG CAPRIKORN SNOW'S ZURICH +*B #916 LA-90
in 2011 he was THE NEW #1 BUCK OF THE SAANEN BREED! AND AGAIN ON THE
NOV. 2015 LIST!! NUMBER ONE FOR MILK/FAT/PROTEIN GENES. **Still number one in
Jan 2017**

S: **SGCH CAPRIKORN ZURICH COBALT+*B LA-91 #230**
He has 50 registered offspring. His sister went for \$2,600 and his brother went for 2,395 So Alice jacked up the price because **she** would like to have a ROCKET son for a change. All the others were bought This was an awesome looking baby buck. He had that sweeping look judge's love, starting from high sharp withers, traveling back along straight topline to a very good rump angle, being lower in the rump than the withers. Then he became a yearling. Our yearling bucks are ugly. One place Scott can fault him is the rump could be wider. Secondly, ZURICH has a slight minus for PTAFS. Cobalt is plus for type, just barely. August 2018 PTAM plus 210 Fat plus 0.08!

His PTAM, PTAF and PTAP% would make him about the equivalent 4th place on the Elite Buck List.. But although he has 24 registered dau's none have ever been on a test in a DIFFERENT herd than CAPRIKORN. So he does not print on the Top Buck (cdcd.us) or Elite Buck (ADGA.org) lists. IT IS RARE FOR A 95th %ILE BUCK TO ALSO BE POSITIVE FOR TYPE.

A great value for the frugal dairy farmer. The dairy farmer who feels he cannot afford the very maximum in milk genes but wants a lot of milk increase and udders that will last a lifetime.

WHY A GREAT VALUE? Because Sam the lazy milker ruined the dam's udder so she can never have a 4,000 lactation. But when you look at what she was doing before that happened, what her dam did, what her dau's are doing, you know she has the genes.

SSS: SG ZEPPPO +*B LA-90

Young Stock Final Score "V"(Just missed Ec) **#3 All-time on the USDA Top Buck List** DEC 2016. We have about 115 buck kids every year and when we picked up ZEPPPO at the airport after flying him from California he was bigger than any of our own kids. And he is still the biggest today, March 2018.

Best Udder in Show versus 24 Milkers!!

S: CAPRIKORN CZARGATE HOT ROCKS #669

HOT ROCKS himself is overpriced for a dairy farmer that never shows. Unless you need **UDDERS**

Almost an NSBA type buck - dam beautiful mammary - especially fore. But dam did not finish 1st or 2nd at Nationals. **8th.**

SUM 777 Overpriced because we have an investment. Daughters that will cost us DHI and LA fees. And he needs quite a few tested daughters before he will be proven one way or the other.

Early on we said "HOT ROCKS will have BIG milk, but not the ULTIMATE MAXIMUM

CAPRIKORN milk/fat/protein. A good choice for the dairy farmer that is looking for THE BIGGEST POSSIBLE improvement in the way his udders are built." But then his dam shocked us.

SDS: CAPRIKORN SNOW BIZNES (LA-90) *B

SD: CAPRIKORN BIZ FLASH OPAL #567- Showiest of the yearlings

In Scott's opinion. #3 behind FLORENCE #577 and FIRE QUEEN #529 at nationals. Also was having a very good baby lactation.

11.5, 11.0, 10.5, 13.5 then 3.5 Got Mastitis

projected at 3354 102 84 before mastitis

SDD: CAPRIKORN DIAMONDS R4EVER

American Saanen 2 y o LA +VVV 86 too low, but then she is linebred

01-00 305 1945 69 3.5% 58 3.0% very good baby lactation

02-00 305 2739 104 **3.8%** 85 3.1% very disappointing milk-awesome components

03-00 299 3231 119 **3.7%** 96 3.0% IN PROCESS - that's better

Our long awaited line breeding on ROCKET. Four people spent 3 hours trying to pull this doe, and finally succeeded. She was not one of the top 9 showiest kids. But we knew that could happen with linebreeding, and we believed her out cross offspring would be super. Mainly expecting the flat rump angle. ROCKET'S FINAL STATEMENT. Not enough fore. Walks uphill. Sharp withers. Tight shoulders per Scott. Only "Good Plus" per Eric. As of March 2016 we had seen two dau's and they were both really well built. So sad that she was bought and lives in Trinidad-Tobago now.

DS: SG CAPRIKORN YELSON STARBY +*B

son of STARGATE, our best doe ever

The new USDA ratings came out August 2014 and STARBY was #5 All Time Saanen Buck!

D: SG CAPRIKORN STARBY DONUT 3*M #343

2 y o LA 87 VVEV Way too low.

One of the 4 showiest yearlings that trade places. First in both rings in her first show. Later defeated.

BUT ALSO ONE OF THE TWO MILKIEST YEARLINGS!

0-11 315 3065 112 3.7% 91 2.9% Fabulous

then lost ½ of her udder and

01-11 315 3046 115 3.8% 93 3.0%

03-00 305 2580 98 3.8% 80 3.1%

Lifetime Fat % 3.7

As a yearling DONUT got first in both rings at Leetown on Memorial Day weekend. Then Sam, a high school kid milker with a very poor work ethic, gave her mastitis and she lost one half. **TIP TO DAIRY FARMERS:** goat people are cheap. Sometimes penny wise and pound foolish. Better to pay a little more for a much better milker. Also, you cannot train them and forget about it. **YOU HAVE TO RECHECK** after a few months.

Milk - yes yes yes

Fat - yes yes yes

Looks - yes yes yes

Is there anything else she could do?

Yes! 3.2 protein instead of 3.0. And not have an ugly full sister. -

DONUT WAS VERY EXPENSIVE. NOW NOT FOR SALE DUE TO LOSING ONE HALF.

Her kids are Scott's pick for the frugal dairy farmer. Her kids will always be a bargain because she can never make 4,000 with only one udder half. On the other hand, because we know how good she is and how good her dau's are, maybe the prices will be too high for dairy farmers, who mostly only look at 305's.

DD: SGCH CAPRIKORN WEALTH XTORT 2*M LA-91

26,000 lb. 2,000 days.

WINNER - LIFETIME MILK AWARD - 2014 NATIONALS grades

XTORT'S LIFETIME FAT IS AMAZING, SHE HAS AROUND 900 LB

The second highest lifetime fat in the herd is only around 600 something.

XTORT made TOP FIVE over and over. She beat our whole herd in 305 at least twice.

Lined on CRUZEIRO, but only 3/16ths.

We had a disastrous test on Oct. 20, 2009, but XTORT held her milk. Maybe she likes to eat soggy round bales out in the rain. Her sister lives in Canada now.

Perfect buck kid for dairyman that does not register. A long history behind this doe. We got an employment application from a person working in the Likuni Boys School in Africa. He became our herd manager and later started his own unregistered herd with our stock. When one of his does, PEPPER, went 5,000 on DHI, we got her dau. That was VANILLA, who completely lost one rear foot but kept on trucking with a **wide** mammary..

XTORT is for people who love goats who love people. She was the only kid to break out of the kid prison to follow you around while you do chores.

As of April 2017 she was first in lifetime milk, fat and protein. Her lifetime fat was

OVER 1,000 LB.. The closest doe to her only had 700.!! Milk **OVER 30,000 lb.** Some cows don't get that far.

XTORT's mammary milks way down. This means she should get an "e" for udder texture. But the Appraiser wouldn't give her one. The Linear Appraisal program is great but it DOES HAVE a box for udder texture and it DOES NOT have a box for TOPLINE or SHARP WITHERS.

XTORT is not a big doe, making her milk records even more remarkable.

XTORT'S DAU CUMIN IS BEATING THE ENTIRE HERD as of August 2014, even though she is only 2 y o. She made Top Ten. And CUMIN again beat the whole herd in 2015. And so far in May of 2016.

PREGNANT - THANK YOU GOD! - FEBRUARY 2016 - NINE YEARS OLD! But aborted.

Not pregnant Dec 2016. She can stay here though.

Yes Pregnant February 2017 10 years Old. Pray she can carry.

Xtort has 7 related dau's.

Their ratings, which are right there on adgagenetics are:

89, 99, 84, 92, 94, 98, 97

KRUMPE is the name of a local donut family which is famous for miles around Hagerstown, Maryland.

Scott says "On the average KRUMPE's daughters will have fabulous udders, **especially for our hand milking customers that need long teats.** His dam has the very top milk genes in our herd and his sire has VERY good milk genes but not the ultimate Caprikorn genes.

S: SG ZEPP0 +*B

Young Stock Final Score "V"(Just missed Ec) #3 All-time on the USDA Top Buck List DEC 2016 LA-90 Whiteside ZEPP0 has 46 registered dau's as of January 2016. His dau's are BIGGER, AND THAT IS IMPORTANT TO US. Because a 16 lb milker that is small is more likely to give a dairy farmer health problems. But a 16 Lb. Milker that is BIG can handle it. ZEPP0 is Mr. Protein. He has the second highest protein % of any of our bucks, ever. To breed for higher fat and protein you have to sacrifice a little milk. BUT BE AWARE THE HIGHER FAT/PROTEIN DOE BRINGS IN A BIGGER MILK CHECK. The winners of the Four Milk and Fat Awards at the 2016 Nationals were both ZEPP0 dau's.

DSS: YELSON

YELSON had two full brothers who have been rated. One had 397 and the other plus 457 PTAM. 457 is better than any buck on the Elite buck list. YELSON has 36 registered dau's as of October 2013. June 2018 rates around 90th %ile.

DS: SGCH CAPRIKORN YELSON BULGING EYE +*B

PLUS 306 PTAM November 2017 LA-90

Coming into the Fall 2016 breeding season, Scott had a lot of bucks to choose from. If you averaged his sire and dam's and two rated dau's percentiles and PTAM's – BULGING EYE was the highest rated buck here. So we went with him. Our judgment was vindicated when the December 2016 ratings came out. He got a plus 302 in milk, higher than any buck on the Elite Buck List. But he does not appear on the list

DSD: SG CAPRIKORN SNOW'S ZANONI 5*M

D: SG CAPRIKORN BE FUSILLI 4*M #526 dob Jan. 23, 2015

Yearling LA ++VE 85 Hell-o! That's a E Mammary!

FUSILLI beat all of the other 3-year-olds on our March 11, 2018 test at only 8 days fresh

And again on April 15 And again on May 13 and June 17.

01-01 305 2356 93 3.9% 77 3.3% (mastitis)

2 YO VEEE 90

02-01 305 3283 135 4.1% 102 3.1% Excellent for a 2yo

Friendly. In April 2017, we said "Very nice looking mammary maybe EX" And in fact the Appraiser did go with "E" in September. Twostraight years FUSILLI got Best Udder in her breed at Howard Couty butin neither year did the judge make her Grand. So hat gives you her profile right there. The rump is steep compared to show does. WE WILL TAKE ALL THE DONUT DAUGHTERS WE CAN GET. She had a case of mastitis her entire yearling lactation that we tried to treat simply by remilking her. But that didn't work. HER NUMBERS WOULD BE EVEN BIGGER WITHOUT THE MASTITIS. The first three tests of her two year old lactation have beautiful SCC counts. So, the dry treatment worked! RESERVE BEST UDDER Aug. 4, 2017 as a 2 y o. versus 14.

DDS: SG CAPRIKORN YELSON STARBY +*B

son of STARGATE, our best doe ever

The new USDA ratings came out August 2014 and STARBY was #5 All Time Saanen Buck!

DD: SG CAPRIKORN STARBY DONUT 3*M

2 y o LA 87 VVEV Way too low.

One of the 4 showiest yearlings that traded places. First in both rings in her first show. Later defeated.

BUT ALSO ONE OF THE TWO MILKIEST YEARLINGS!

0-11 315 3065 112 3.7% 91 2.9% Fabulous!!

then lost 1/2 of her udder and

01-11 315 3046 115 3.8% 93 3.0%

03-00 305 2580 98 3.8% 80 3.1%

Lifetime Fat % 3.7

As a yearling DONUT got first in both rings at Leetown on Memorial Day weekend. Then Sam, a high school kid milker with a very poor work ethic, gave her mastitis and she lost one half. TIP TO DAIRY FARMERS: goat people are cheap. Sometimes penny wise and pound foolish. Better to pay a little more for a much better milker. Also, you cannot train them and forget about it. YOU HAVE TO RECHECK after a few months.

Milk - yes yes yes

Fat - yes yes yes

Looks - yes yes yes

Is there anything else she could do?

Yes! 3.2 protein instead of 3.0. And not have an ugly full sister. -

DDD: SGCH CAPRIKORN WEALTH XTORT 2*M LA-91

32,444 lb lifetime. Over 1,000 LB b.f.

WINNER - LIFETIME MILK AWARD - 2014 NATIONALS grades

In August of 2017, the judge at the Howard County Fair made FUSILLI Best Udder versus around 15 does. On August 3, 2018 a different judge exactly the same thing. That should give you a profile of what FUSILLI looks like.

Best Udder in Show versus 24 Milkers!!

S: CAPRIKORN CZARGATE HOT ROCKS #669

HOT ROCKS is if you need **UDDERS**. Almost an NSBA type buck - dam beautiful mammary - especially fore. But dam did not finish 1st or 2nd at Nationals. **8th**.

Early on we said "HOT ROCKS will have BIG milk, but not the ULTIMATE MAXIMUM

CAPRIKORN milk/fat/protein. A good choice for the dairy farmer that is looking for THE BIGGEST POSSIBLE improvement in the way his udders are built." But then his dam milked like crazy.

SDS: CAPRIKORN SNOW BIZNES (LA-90) *B

SD: CAPRIKORN BIZ FLASH OPAL #567- Showiest of the yearlings

In Scott's opinion. #3 behind FLORENCE #577 and FIRE QUEEN #529 at nationals. Also was having a very good baby lactation.

11.5, 11.0, 10.5, 13.5 then 3.5 Got Mastitis and died.

projected at 3354 102 84 before mastitis. Crazy good for a baby.

SDD: CAPRIKORN DIAMONDS R4EVER

American Saanen 2 y o LA +VVV 86 too low, but then she is linebred

01-00 305 1945 69 3.5% 58 3.0% very good baby lactation

02-00 305 2739 104 **3.8%** 85 3.1% very disappointing milk-awesome components

03-00 299 3231 119 **3.7%** 96 3.0% IN PROCESS - that's better

Our long awaited line breeding on ROCKET. Four people spent 3 hours trying to pull this doe, and finally succeeded. She was not one of the top 9 showiest kids. But we knew that could happen with linebreeding, and we believed her out cross offspring would be super. Mainly expecting the flat rump angle. ROCKET'S FINAL STATEMENT. Not enough fore. Walks uphill. Sharp withers. Tight shoulders per Scott. Only "Good Plus" per Eric. As of March 2016 we had seen two dau's and they were both really well built. So sad that she was bought and lives in Trinidad-Tobago now.

Dam of AL LEX -----ALEX

DSS: A STANDOUT son out of a PRIME RATE dau.

DS: SG ZEPPO +*B LA-90 #7 on the latest USDA Top Buck List

DSD: SARAH – LA-91 and former 99th %ile doe and Top Ten

D: SGCH CAPRIKORN ZEPPO ALEX 10*M 99th %ile LA-92 **TOP TEN**

ALEX is Number One on the USDA-DHIA Elite Doe List as of June 2018

Grand vs 16 milkers AOP, then **BEST IN SHOW AUGUST 10, 2015!**

Scott & Alice forgot to bag up ALEX for Appraisal (she was milking through)

But they remembered a week later – **BIS** Next year 91 or 92, not 89.

BEST IN SHOW AGAIN SEPTEMBER 19, 2015

DD: SG DAUGHTER'S X ILEX 9*M **TOP TEN TWICE** - page 8

ALEX WON THE MILK AWARDS AT THE NATIONALS

AL had a badly **RETRACTED TENDON AS A BABY**. Looks good now. He won't pass that on to his offspring.

April 4 baby bucks don't work until October 19 on the average.

As of June 2018, **ALEX IS NUMBER ONE** of all Saanens on the latest Elite Doe List, which came out Dec 2017.

If the Spotlight Sale Committee had accepted his brother, **KING ALEX**, then Al would be staying. (Unless someone wanted to com through with \$9,500.)

But since they rejected his brother, then we can use his brother here and we have listed Al for sale.

QUESTION-

IF YOU ARE A DAIRYMAN THAT DOESN'T WANT TO SPEND HOURS AND HOURS STUDYING BLOODLINES AND STATISTICS, WHAT IS THE ONE REASON YOU SHOULD BUY AL?

answer - because Scott has spent 40 years studying all those statistics and in 2019 he is going to use AL's full brother ALEX to the maximum!

LA-90 Second place Dam and Dau Nationals July 4, 2016

01-06 305 2716 81 3.0% 77 2.8%

2-06 306 3617 122 3.4% 103 2.9%

We said “Will probably be 1st place Jr. Yearling at 2013 Nationals.” two years ago in this catalogue. WAS ACTUALLY 2ND PLACE ON JULY 9, 2013!

And on July 4, 2016 she was 12th place 3 year old.

If you saw CHEYENNE you would know right away you want

her kids. Her dam was ranked 99th percentile and her

sire is our best milk buck out of those with a positive

PTAFS. It was scary to think how good CHEYENNE could

be. As a kid she has been shown only once and was Grand

Champion. In milk, before she turned two, she was first

in both rings as a milking yearling. Then we stopped

showing her. It's too bad U.S. breeders put way too

much weight on mammaries and way too little weight on

milk/fat/protein. But that IS the way it IS. Feb. 19,

2014 maybe an E mammary – maybe not enough fore.

Fabulous rear and teats. Shown only once in 2015 and of

course she could not beat CASSIOPEIA. CHEYENNE got

coded “A” for acceptable for feet. Bad. smh codes J

88, Ec WS, 90 KS

Still milking at 10 years old SEPTEMBER 2016!!

Lifetime 2,497 days 27,299 lb and climbing. WOW!

Not only did she start early, 9 months of age, but very few does can do 2,900 ending at 8 ½ years old.

Her dau ANDROMEDA was 10th? yearling milker at National Show

What if we could develop a strain that always kidded at under one year?

WIARA, FORMERLY 97 Percentile rank, has fallen to 90th.

The USDA computer needs to learn how to give older does a break. Her doe YIARA owned by Scarlett Payne.

Our other Top Ten that year was WIARA's niece YIN YANG #821.

WIARA bred herself and kidded at 9 months of age! AND had a 16 lb test! WIARA is super friendly.

WIARA had a PTA for stature of plus 9.9, which was bigger than any buck in adgagenetics. At 1 yr & 6 months, bigger than the mature does. (MOOSE was a giant). So in Fall 2013 we were using BING, because he was born when his dam was 8 ½ months old. BING was bought, but he begat NEW ERA #424, before he left. So now we have the start of a new breed of Saanens that kid at a younger age so the dairy farmer doesn't keep losing money on them while they are dry.

Our oldest doe as of February 2016 and TESTED PREGNANT! We use her son, NEW ERA, #424. And HERACLES will probably be our clean up buck this winter.

DD: SG CAPRIKORN KRUG'S STARGATE - page 59 - #1 in U.S.A TWO

DIFFERENT YEARS! (All breeds)

LA-90 & LA-89 & BIS vs. 24 milkers.

Now the question is - Since we use a WIARA son here, why hasn't anyone bought HERACLES? Because they think they know better than the heaviest milking herd in the U.S.? Or because they don't realize that if their herd was averaging 11.7 like WIARA's, their milk checks would go up by \$51,030 per year.

11.7 pounds here minus 9 pounds there equals 2.7 lb per day times 150 does times 300 days times \$42/hundredweight equals \$51,030 more per year.

HERACLES does have a weakness - his dam's b.f.%. ECLIPSE should bring that up, but not enough for it to be positive.

HERACLES has one rear foot that Scott calls a "rocker foot."

HERACLES – “One of American Dairy Goat Associations Sire Development Bucks”

#424 - WIARA’s babies are friendly, have personality, and come up to you when you go into their pen.

HERACLES Big and Rangy, Excellent length. Shallow heels, good rear leg angulation. Clean front legs. Good to very good escutcheon. Good shoulders, Excellent DC. Extraordinarily friendly, inquisitive, and human like. We used him as the clean up buck on the main milking herd.

This is an awesome choice for a herd that is commercial and has some mixture of Alpines and Saanens because Scott used this buck heavily as the clean-up buck at Caprikorn Farms. So you know that he’s got the milk. Starting in 2017 we became dismayed with the back pasterns. Other herds will take a beautiful udder and a poor set of back pasterns. At Caprikorn we would rather have strong back pasterns and a not so pretty udder. If you have a mixed herd, then you probably have good back pasterns. We are Saanen breeders and we have always bred for strong back pasterns because all 120 Saanens that were brought into the U.S. had poor back pasterns.

05-01 305 3327 99 3.0% 93 2.8% NSBA SILVER SEAL
Ended with Lifetime 1,396 days 15,575 pounds 2.8 b.f. 2.8 pro
Finished in only 4 shows, a total of 6 rings.

An ELITE DOE (which strictly measures milk/fat/protein genes). VIOLET had ”INVERSION” - more protein than fat. We chose VIOLET’s twin VERN to breed the awesome does STARGATE and VENICE Nine pounds at birth. We had named VIOLET’S dam to honor Tina Gilchrist’s immortal GCH FOOTHILL FARM MEADOW SPRING TOP TEN LA 90. Dam had the big arc 35. And Rear Udder height: 38. Dam had extra teat.

VIOLET started life with the RENOV steep rump. That changed. We don't want to waste time on conformation but one item we do want is "The Big Arc"! We used to have big wide escutcheons. As of November 2012, Violets lifetime was 1,396 days 15,575 milk. She had cream, not white hair and an undesirable Saanen nose. It's so easy to be the top Saanen **milk** herd. The other breeders select for color and noses. We can just keep selecting for milk/fat/protein, all wrapped into one number called "percentile," or "Rank". VIOLET "HAD IT ALL"

It is very unusual for there to be two straight generations of 92's. There are very few Saanen 92's in any given year.

He has 7 registered kids at CAPRIKORN but they are too young to prove anything.

On August 1, 2018 Scott said, "This is a beautiful vigorous buck with a lovely top line and big width up front. His negative is that his rear end assembly is too narrow and he is too hocky. A lot of the look of his close relative MEADOW BOSS is here. But the family keeps coming with 92's so it appears that the rear end narrow doesn't get passed on to female offspring. Will be looking hard at his first few daughters as they freshen to see if this trait is showing up."

1ST PL 3 YO & BU vs 24 milkers June 24, 2006

305 days 5140 pounds #1 in USA NSBA GOLD SEAL

305 days 5367 pounds #1 in USA 2x NSBA GOLD SEAL

One of only two Saanens in history of the U.S. that had two lactations of over 5,000 pounds in 305 days.

05-10 305 3653 109 2.9 04-08 377 6105 176 2.9

04-08 305 5367 150 2.8 #1 in the USA (over all breeds)

02-08 305 5140 160 3.1 #1 in the USA (over all breeds)

01-08 305 3220 87 2.7

Best Udder in Show versus 24 Milkers!!

DDS: SG SHERRY'S TSM HELSA'S YELSON +*B - Probably our milkiest buck

DS: CAPRIKORN YELSON STARBY *B - son of **STARGATE**, our best doe ever - The new
USDA ratings came out August 2014 and STARBY is a #5 All Time Saanen Buck!

D: CAPRIKORN STARBY DOBRE - top milking yearling - also looks great 98%ile

DD: SG CAPRIKORN RV YGERNE 12*M **TOP TEN** LA-92 9th place at Nationals.

YEARLING LA-86 +EEV Jermain

LA-91! 3yo Jermain

LA-92! EEEE 4yo White

03-11 269 4427 129 2.9% 120 2.7% should be Top Ten

She was on pace for 5,000 in 305 June 2012.

YGERNE was cruising at 19lb per day in may 2011 and going up. Had (more protein than fat)
but it changed.

HAD A SHOT AT 5,000 THIS LACTATION!! The trip to Colorado and back slowed her down.

10th Place 4 y.o. at 2012 Nationals!! (out of 19) Ben Rupchis, an extremely picky breeder, is
starting a new super herd. He chose YGERNE's son as his herd sire.
